PRESS RELEASE: DRIVE PRODUCTS EXPANDS INTO WINNIPEG, MANITOBA

We are excited to announce our expansion and return to the province of Manitoba by securing a brand-new facility in Winnipeg. Drive Products has a rich history in the Manitoba market since our beginnings in 1983. More recently we have supported the Manitoba market through our local distribution partners.

Drive Products–Winnipeg is a key addition to our national footprint. We are now represented from coast-to-coast with brick and mortar locations in all industrial regions of Canada thus completing “The Map”. As a major transportation hub in Canada and the “Gateway to the West”, Winnipeg has always been a strategic market for Drive Products dating back to the late 80’s when we first opened up a local branch. We’re thrilled to be back providing better coverage, support, and new products to our local and national customers.

Drive Products-Winnipeg will join the growing DP branch network in offering best in class products, solutions & services to the regional Manitoba market including, *PTO & Hydraulics, Bulk Transport, Driveline, Snow & Ice Equipment, Winches*, and our vast portfolio of *Truck Equipment* through a combination of our Truck Upfitting Shop and Distribution. The goal is to open in Q2 of 2021, so please stay tuned for more information.

Drive Products–Winnipeg Q2-2021

10 Keenleyside Unit# A
Winnipeg, Manitoba R2L 2B9

3 Service Bays

4000 sq. ft. office/showroom

37,000 sq. ft. fenced compound

We’re also pleased to announce and welcome **Louis Matyus as Operations Manager** for Drive Products–Winnipeg.

Louis has a rich background in hydraulic systems, manufacturing, operations management, and industrial sales. Prior to joining Drive Products, Louis spent 15 years with Berendsen Fluid Power as a Branch manager. Louis’ experience and knowledge of the Manitoba market is integral to setting up our brand-new facility. He’s already begun working alongside our leadership team to develop floorplans, equipment setup, and staffing requirements. Welcome to the team Louis!
