

## Drive Products Regina is moving!!!

Our NEW Regina facility is currently in the final stages of its renovation. Our new location will be located at **338 Mill Street** about 15 minutes north of our current location.

We're very excited to move into a 9300 sq.ft. facility with 5 acres of additional space. It will feature 4 bays, new office space, customer service reception area, and plenty of parking and storage.

We expect to be moved in by the 2<sup>nd</sup> week of February 2022, please note that for the next couple of weeks as we begin to move out of our current facility at 288 Hodsman Rd. we will be operating with limited capacity. Should you have any concerns or need immediate assistance please see the contact information below or contact one of our other branches who will be happy to assist you as we complete our move.
