DRIVE PRODUCTS LAUNCHES MANUFACTURING, UPFITTING & DISTRIBUTION OPERATIONS IN WINTERS, TX

We are proud to announce that Drive Products is launching the Tradesman Storage Box & Tank Manufacturing operation in Winters, Texas under the Drive Products Manufacturing Division (DPM), effective November 1, 2022. In addition, Drive Products will share the facility with newly launched truck Upfitting & Distribution operations - all under one roof.

The 120,000 sq.ft. Winters TX Manufacturing operation has a long legacy of manufacturing high quality steel and aluminum storage boxes and tanks for truck accessory markets across the United States and Canada under multiple banners but most popularly in Texas under the "Tradesman" brand. Drive Products Manufacturing Division (DPM) is committed to launching the Tradesman storage box and tank brand and manufacturing the product line as Made in Texas, Made in America in the years to come.

Along with Tradesman

storage boxes and tanks, the Winters TX operation will be dedicated manufacturing Voth, Kargo King and Big Max truck body products.

The Winters TX facility will also now become home to Drive Products-Texas where we will launch our southern USA Truck Upfitting & Distribution operations as part of our planned USA expansion. The Winters TX location will provide upfitting services to regional and national fleets and private operators with our wide-ranging truck equipment offering, including our DPM branded Voth Truck Body, Kargo King Roll Off and Big Max product lines. Drive Products will also continue to represent many of the same industry leading truck equipment brands we represent today through our existing network of 22 locations across Canada & USA. Additionally, we will dedicate a portion of the Winters, TX facility to our core Parts Warehousing and Driveline services.

We're excited to welcome our new Winters, TX staff to the Drive Products team and we look forward to future growth and success in Texas, USA.

Sincerely,

Robert Edmonds
CEO
