PRESS RELEASE: DRIVE PRODUCTS EXPANDS INTO QUEBEC CITY

In 2022 and 2023, Drive Products continued its expansion in Quebec with a truck upfitting and industrial driveline shop in Laval. Today we are proud to announce a new facility opening in Quebec City, expanding our footprint to four locations in the province of Quebec.

The addition of the new operation signifies Drive Products continued commitment to the Quebec market. Drive Products will now have a regional operation to support the central and eastern regions of Quebec. Drive Products–Quebec City will provide our full suite of services from Light, Medium, Heavy truck equipment upfitting to PTO & Hydraulics, Wet-line kits, Driveline & Bulk Transport services along with providing access to a vast portfolio of product from leading industry brands.

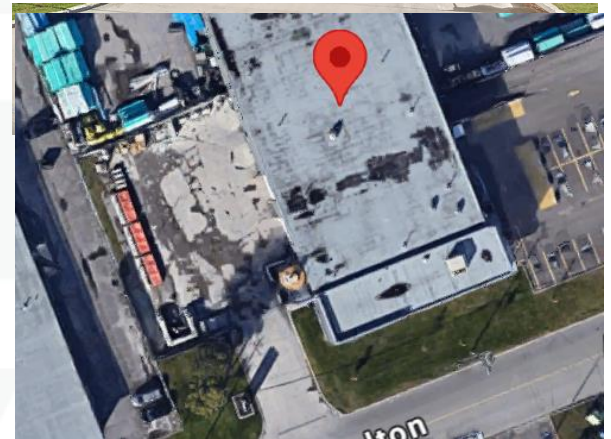

Drive Products–Quebec City will also be a sales and service destination for our newest product lines that include Posi+ Cable Placers, Stellar Mechanics Bodies and Cranes, Versalift Aerials and HMF Cranes.

Additionally, Drive Products–Quebec City will provide our national and regional Quebec customers with another service point. With the addition of Quebec City, Drive Products has added one of Canada's top-10 largest centers to our national footprint that now consists of 25 Manufacturing & Truck Upfitting Locations

We look forward to fulfilling our company mission to bring premium quality solutions, products, and services from the best people in the industry in Quebec City

2550 Av. Dalton, Québec, QC G1P 3S4
