PRESS RELEASE: DRIVE PRODUCTS SERVICES EXPANDS WITH NEW HAMILTON FACILITY

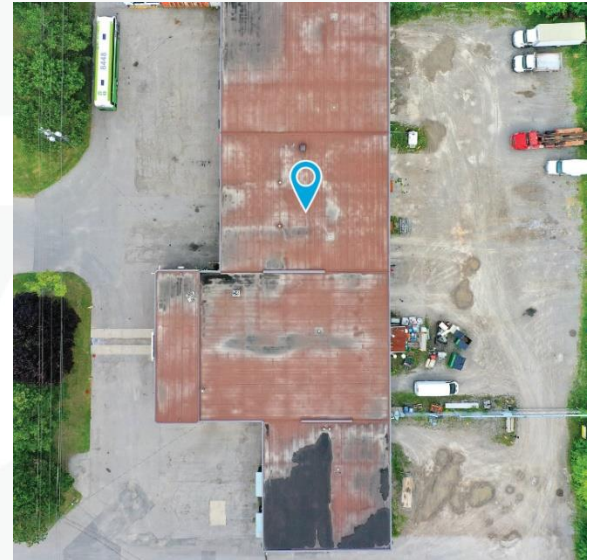

In October 2023, Drive Products Services was launched in St. Catharines, ON to support our regional customers with a suite of truck equipment products and services. After one year of the doors being open, Drive Products Services has outgrown the St. Catharines facility and will be moving into a larger facility just up the highway.

The new facility boasts 23,500 sq ft. of building space, featuring 18 service bays on a 2-acre lot. Located only 30 mins away from the current shop, the new facility will be equipped to perform all services akin to a Drive Products branch such as Light, Medium, Heavy truck equipment upfitting, PTO & Wet-line kits, Hydraulics, and Driveline.

The new facility will also bring added capacity and enhanced support for the regional and national customers in the market segments we serve today such as Utilities, Construction Fleet, Equipment Rental, Bulk Transport, Building Supply, and many more... Coinciding with the company's mission to provide premium quality solutions, products and services from the best people in the industry...the new facility is aimed to enhance the customer experience and support for new product lines such as Versalift Aerials, Posi+ Cable Placers, Stellar Mechanics Bodies & Cranes and existing products such as HMF Cranes, Jerr-dan Tow & Recovery, Kargo King Roll-Offs, Voth Truck Bodies, SwapLoader Hooklifts, Sterling Beavertails, Muncie PTO's & Hydraulics, Gardner Denver, Permco and Tulsa Winch.

256 South Service Rd, Stoney Creek, ON L8E 2N9
