## PRESS RELEASE: DRIVE PRODUCTS – Officially awarded FORD Pro Upfitter Status

Drive Products is proud to share some exciting news with our customers, partners, and team: Drive Products is now officially recognized as a Ford Pro Upfitter!

This designation is a major milestone that places Drive Products amongst a select group of upfitters across North America who meet Ford's highest standards for quality, safety, engineering, and performance. It's more than a badge — it's a signal that Drive Products is a trusted partner to both Ford and the fleets that power essential industries today.

What makes this even more impactful is that Drive Products is already a Ford Chassis Pool Stockholder and Ship-Thru Partner for Ford's regional truck dealer and work truck fleets nationally. For those not familiar with these two programs, it means Drive Products has direct access to Ford's commercial vehicle cab & chassis and ability to upfit and build work trucks through Ford's logistics network — giving our customers improved and streamlined access to upfitted work trucks with simplified ordering, and full factory integration with Drive Products.

What sets Drive Products apart is the multiple locations across North America and decades of experience. Drive Products offers full-service work truck solutions that few others can match. For its customers and the markets like Utilities, Telecom, Construction and beyond. Drive Products is truly positioned as a go-to partner with:

- A true one-stop shop for work truck solutions that is "Coast to Coast"
- OEM-level fit, finish and compliance Drive Products manufactured truck bodies & equipment and other truck equipment in Drive Products vast portfolio.
- Streamlined customer service and support that Ford and Fleet operators can trust.

From start to finish, Drive Products designs and manufactures truck bodies & equipment paired with upfitting capabilities to build work trucks by market as a one stop shop for customers.

Whether it's service bodies, dump bodies, decks, van shelving, buckets, crane trucks, or PTO's, Drive Products builds to perform — and now, as a Ford Pro Upfitter, the company will continue to do so seamlessly with Ford's Light & Medium Duty Truck Platform.

Drive Products is incredibly proud of this recognition and excited to drive the industry forward.
