PRESS RELEASE: DRIVE PRODUCTS MANUFACTURING FACILITY OPENS IN MORDEN, MANITOBA

We are excited to announce the completion of our expansion and the opening of our brand-new Drive Products Manufacturing facility in Morden, Manitoba.

In 2021, Drive Products announced its return to Manitoba with the opening of an upfitting facility in Winnipeg and shortly after that a transitioning manufacturing facility in Morden.

72 Jefferson St

Drive Products investment into Manitoba and Western Canada is part of its long-term plans of enhancing its coast-to-coast operations with brick-and-mortar locations in all industrial regions of Canada.

Drive Products Manufacturing facility in Morden boast 56,000 sq ft. and will manufacture a select suite of products from Voth Truck Bodies, Kargo King Roll-Off Systems, Bigmax Roll-offs, and more... The new facility will enhance our ability to deliver and support existing and new distribution customers with our manufactured

goods in Western Canada and extend our coverage south of the border into the Midwest and Western US Market.

Furthermore, our existing facility across from the new building will continue to serve as a satellite shop to upfit and service the local work truck market.

Thank you to our internal staff, local suppliers, and contractors for their help as we celebrate this momentous occasion for Drive Products.
