TILLSONBURG

TILLSONBURG EXPANSION PROGRESS

WINDSOR EXPANSION PROGRESS

REGINA EXPANSION PROGRESS

Voth manufacturing facility is located in Tillsonburg, ON, Canada. Voth Truck Bodies serves Canada and the U.S. with steel, aluminum and hybrid truck bodies and is also a manufacturer of Kargo King Roll-Off Systems, Big Max Roll-Off Systems, SnowBull Snowplows and is the new home of the DEL JOB BOSS Dump Body. In July 2020, Voth is expanding its' manufacturing footprint, with 25 acres of land adjacent to the existing facility in Tillsonburg, ON. This expansion project is now underway as we prepare for a new national equipment storage center and pool stock lot.

The GWA team has been managing a building expansion at the Windsor manufacturing and upfitting facility since the fall of 2019. With the intention to increase manufacturing space, and integrate Drive Products upfitting, this expansion aimed to double the existing footprint at that location with an additional 40,000 sq.ft. As the building project reaches completion, GWA is excited for the addition of new technology and expanded footprint in Windsor.

In 2021, we are excited to announce that Drive Products has acquired 5 acres of prime industrial land in Regina, SK. This newly acquired land will allow for the expansion of our existing Regina branch and will also serve as the future home of our new Voth Western Canada Manufacturing Centre. The expanded Drive Products: Regina will be a full spectrum operation, housing our Manufacturing, Upfitting and Distribution Operations.

NATIONAL FOOTPRINT (TOTAL AREA: 800,000+ SQ FT)
