About Us

THE BEGINNING

Recognizing a need for industry specialists, Greg Edmonds established Drive Products in 1983 to supply products and systems to the Truck Mounted Equipment industry in Ontario. The foundation was set with a 3,000 square foot leased building in Toronto, three employees, and \$100,000 starting inventory. Drive Products' success continued in the form of exponential growth. Growth was established by partners with a wealth of knowledge and experience who shared a common vision. Operations were expanded through the addition of branch locations and the integration of driveline and cable manufacturing. The company also strengthened its market position by securing an exclusive distribution arrangement with Muncie Power Products and by acquiring additional complimentary product lines.

DRIVE PRODUCTS TODAY

Today, Drive Products employs over 300 people and enjoys a significant share of the Canadian market. The Corporate Head Office in Mississauga oversees branch operations in Vancouver, Calgary, Edmonton, Montreal, Halifax and Tillsonburg (Voth Manufacturing).

Drive Products provides a complete source of truck mounted equipment and products and is Canada's leading systems integrator. In addition, Drive Products also specializes in systems engineering, installation, and repair services.

To better service its customers, Drive Products is registered to ISO 9001:2008 Quality Management Systems.

DRIVE PRODUCTS TOMORROW

Looking towards the future, Drive Products will continue to deliver products and services that exceed our customers' expectations. With continuous focus on improvement, the introduction of new product lines and additional Canadian locations, Drive Products will continue to be the industry leader.

**Our company exists because of our customers,
our employees and our expertise.**

Dump Body Pick Up Insert

STEEL & ALUMINIUM

Voth Dump Body Pick Up Truck Inserts are custom designed for 1/2 , 3/4 and 1 ton short or long pickups.

PRODUCT INFORMATION:

- Landscape or Chipper body styles
- Steel or Aluminium
- Twin Cylinders allow for lower mounting and higher lifting capacities
- 12V Single pump power back

Voth Landscape Dump Bodies

STEEL, HYBRID & ALUMINIUM

From Light Duty to Contractor Grade Landscape Dump Bodies, Drive Products offers a wide range of models that are boldly designed and manufactured for maximum durability based on today's demanding applications. All Landscape Dump Bodies are built with precision to provide superior service and reliability and are backed by an industry leading warranty.

AVAILABLE LENGTHS

- 9'9" (2170lbs, 2.6 cubic yards, 7 ton hoist)
- 11'9" (2410lbs, 3.7 cubic yards, 7 or 12 ton hoist)
- 12'9" (2641lbs, 4.1 cubic yards, 7 or 12 ton hoist)
- 13'9" (2819lbs, 4.4 cubic yards, 12 ton hoist)

ALUMINIUM

Voth Flat Deck Body FIXED & DUMPING

STEEL, GALVANIZED WITH APITONG WOOD & ALUMINUM

Voth Flat Decks and Dumping Flat Decks are custom built to your specifications.

Available in Lengths from 8' to 26'

Voth Chipper Bodies

ALUMINUM

Voth Aluminum Chipper Bodies are made for heavy duty service and are custom designed according to customer needs and specifications.

Kargo King Roll Off System

TRANSCENDING THE CONVENTIONAL

RECREATIONAL LIFT (RL)

The ultimate motorsports products transportation tool. Moving from point A to point B has never been easier. The RL Series is the safest and most versatile handling systems available in the market today. Operated using a remote control, the RL Series quickly and safely unloads motorcycles, ATV's, snowmobiles and other small equipment.

Kargo King Roll Off System

SAFE. SIMPLE. EFFICIENT

DETACHABLE SYSTEMS (DS)

The Kargo King Detachable System allows business owners and fleet managers to think and act differently! This one-of-a-kind truck mounted roll off system was designed with the idea that contractors often need their trucks for more than one job type. By permanently mounting a truck body onto truck chassis', business owners tie up valuable working capital when these same truck bodies can be interchanged at a fraction of the overall cost. The Kargo King DS is the comprehensive solution for business owners and fleet managers who wish to reduce capital expenditures (truck purchases) and decrease expenses (maintenance, insurance and fuel) related to their truck fleet.

Kargo King Roll Off System

RENTAL SYSTEMS (RS)

The Kargo King Rental System (RS) is a truck mounted roll off system specifically designed and engineered to meet the unique demands of present day rental equipment fleets. Over the past twenty years the number of rental equipment pieces introduced to market has increased dramatically in both volume and complexity. This increase has brought with it numerous challenges related to safe loading and transport of rental equipment. Be it small compaction equipment, scissor lifts or aerial devices, each piece of equipment presents its own potential safety concerns. The Kargo King RS addresses these concerns by design!

Copma

HOOKLIFTS

Introducing the new "SR" series, created to respond effectively to specific needs: light weight, easy operation, low cost, ease of maintenance, but without giving up the high standards of quality. The SR series is available in the following versions: 3, 5, 8, Ton loading capacity.

All models are equipped with a single cylinder for lifting operations, sliding jib only, hydraulic locking for container. Made of high quality materials such as Weldox, to give it more elasticity, strength and lightness.

Copma

CRANES

Copma Cranes provide powerful innovation and proven experience to turn your material handling challenges into well designed solutions providing quality service and hoisting solutions. Copma offers a wide range of models that are available with multiple versions of short booms, long booms, and are equipped with jibs, winches, radio remote controls and aerial baskets.

Drive Products

PRESSURE TRUCK

Drive Products specializes in custom built pressure trucks from one-ton to tandem and tri-axle applications. We carry a full line of pumps from 50hp to 600hp.

Reading

SERVICE BODY

STEEL SERVICES BODIES

When you want steel services bodies that look great while delivering the rugged, effective and durable performance you need, look to the company that started it all – Reading Truck Body.

SL SERVICE BODY

The Reading SL service body offers an economical alternative that maintains the same premium A60 galvanized steel construction and Triple Protection E-coat primer and powder coat finish you expect from Reading. You want a steel service body because of its toughness, and the SL Service Body delivers with heavy-duty compartment doors, stainless steel bolt-on hinges and our Dual-Pro® Seal System.

CLASSIC II STEEL SERVICE BODY

The Steel Classic II™ is Reading's premier steel service body, with quality components, innovative features and Reading's legendary durability. You enjoy Reading's trademark quality construction plus premium features like weather-tight storage, Latch-Matic® locking, small parts storage, optional aerial and crane devices and much more. This is the pinnacle among steel service body options on the market.

FORD TRANSIT - CLASSIC SERVICE VAN

- All-aluminum welded construction provides even more corrosion resistance
- 50% lighter than comparable steel bodies
- Enhanced payload capacity
- Save up to 10% in fuel costs
- Recyclable

Duralift

AERIALS

Dur-A-Lift gets you exactly where you have to go with all of the tools you need to do the job right, because every lift that leaves our floor is custom-built to be all yours, from the ground up. Contact us about building a bucket truck made just for you!

Maxon

LIFTGATES

The Me2 C2 is ideal for today's full-sized pickup trucks. Lifting up to 1500 lbs, Me2 is a cost-effective option with heavy-duty features that delivers reliable performance.

HIGH PERFORMANCE, LOW MAINTENANCE

All of Maxon's Me2 C2 liftgates are built with high performance and low maintenance in mind. An oversized, fully enclosed pump and motor assembly helps ensure increased life and less potential for downtime, while maintenance-free, grease-free bearings reduce the need for service. A timed toggle control prevents unauthorized use, automatically deactivating 90 seconds after operation.

DIRECT LIFT, LEVEL RIDE

Me2 C2 lifts provide direct lift with level ride, with ramp options that increase loadable platform depth, as well as the option for steel or aluminum platforms.

KEY FEATURES:

- Dual hydraulic lifting cylinders
- Maintenance-free components
- Protected / recessed main control with time-out features
- Steel or aluminum platforms
- Fully-enclosed hydraulic system

RAILIFT™

FOR TODAY'S MOST DEMANDING DISTRIBUTION REQUIREMENTS

Maxon was the first to bring the rail style liftgate to the United States during the 1970s. The Railift™ Series is a classic that never goes out of style because its heavy-duty level ride and dock loading capability are designed to handle some of the most demanding distribution requirements.

EXTREME DEPENDABILITY

The Railift™ Series is ideal for bulk delivery and wheeled cargo with a combination of dock and street delivery. Railift™ lift gates provide a level ride through-out the lift for maximum load stability.

The ultimate goal of the groundbreaking new DMD design is to offer a high performing medium-duty Railift™ combined with low maintenance needs. The DMD features two direct acting cylinders versus competing concepts with one horizontal cylinder and cables and/or pulleys. Consequently, the DMD has fewer moving parts resulting in less ongoing maintenance.

Maxon took the RC model a step further by offering the RCT, which expanded the capabilities to include a platform that stores below bed level and in dock-ready position.

Drive Products

SNOW REMOVAL/ICE CONTROL

Western Products are the leading manufacturer of snow and ice control products, with a full line of CONTRACTOR GRADE® snow plows for commercial snow plowing as well as personal-use and light municipal snow removal operations.

Western Products also offers a variety of hopper and tailgate-mounted ice control sand and salt spreaders, along with a wide selection of performance-enhancing snow plow and spreader accessories and parts.

Force America

LIQUID APPLICATION/ELECTRONIC CONTROLS

CRITICAL SPOT SPRAYER, AI200

Our Critical Spot Sprayer assembly is designed for light-to-medium duty truck applications. Featuring stainless steel spray bars and extra high strength U.V. stabilized tanks. The Critical Spot Sprayer is capable of accurately applying liquids of all specific gravities. The Critical Spot Sprayer is ideal for parking lots, sidewalks, bridges and intersection de-icing and anti-icing applications.

TURN-KEY SYSTEM

Ready for use, no assembly needed in 200, 300, 400 and 500 gallon systems.

NO TRANSFER OR PUMPING STATIONS REQUIRED

Standard system includes integrated liquid loading, unloading and transfer functions.

ULTRA-COMPACT DESIGN

Revolutionary design allows easy transfer between all standard pick-up bodies and flatbeds.

UNIQUE SPRAY BAR STORAGE AND MOUNTING

Complete adaptability allows users to go from storage to use in seconds with exclusive receiver hitch-style mounting system.

OPTIONAL HERBICIDE SPRAY BAR

Adds multi-use functionality to your system-use year round.

SSC3100 SPREADER CONTROL

- Compact design at 4.46" H x 6.09" W x 2.75" D
- LEDs around the dial illuminate numbers as rates increase
- Simple calibration mode for adjusting minimums and maximums
- Control liquids independently of granular for direct liquid applications using the dedicated liquid dial
- Fuse accessible from the outside of the controller
- One simple harness for effortless installation
- Fully adjustable mounting option for easy, customizable installation

Vanair

Mobile Power Solutions

ONBOARD AIR COMPRESSORS

PTO SHAFT & HYDRAULIC DRIVEN UNDERDECK MODULAR SYSTEMS

Utilizing the FORD®'s own engine for power, Vanair underdeck rotary screw compressor systems provide you with the exceptional power your crew needs to get the job done where and when they need it - without hauling an expensive air compressor tow-behind. Using a single PTO opening, these systems provide up to 185 CFM* of impressive air power, AC power or hydraulics, or any combination of all three. At half the cost of a tow-behind, PTO underdeck systems mount seamlessly out of sight, under the vehicle, leaving the towing hitch free for other equipment and opens up the truck bed for additional storage space.

UDSM Air Only	PTO Shaft Driven	Air (CFM) 80, 85, 125, 160, 185 or 200	Air (PSI) 100-150

Iconic

Metalgear

TOOL BOXES & ACCESSORIES

X-PRO HIGH SIDE TRADES TRUCK PACK

The shape of the packs follow the angle of the truck's cab to improve fuel economy. Featuring a built in ladder rack, adjustable shelves, flip up door with gas shocks, automotive bulb seal, rain gutter door frames, and keyed stainless handles that are also pad lockable. Each truck pack comes with either a front crossbox, or a chest box option. Mounting kits included, fits most full-size Ford pickups. Ladder rack capacity: 500lbs.

X-PRO LOW SIDE STORAGE PACKS

Low side truck packs are built from super heavy-duty, yet lightweight aluminum and will easily outlast your truck. Weighing only 275lbs, these boxes will make a very minimal dent in your truck's load capacity.

The centre tonneau lift cover offers full access to your truck bed; featuring gas shocks and a reinforced lid that can hold up to 500lbs. The deep side compartments allow for easy access from the ground and weather stripping offers arm protection when reaching deep inside the box.

Iconic

Metalgear

TOOL BOXES & ACCESSORIES

GULLWING TOOLBOX

Built industry tough! The gullwing toolbox from Iconic MetalGear is a lightweight, heavy duty, pickup truck toolbox that is constructed entirely with aluminum. Offering a “big mouth” design that provides easier access and greater capacity, you’ll be able to carry more tools than ever in your MetalGear gullwing toolbox. Each gullwing box comes standard with stainless steel action lock t-handles, stainless steel piano hinges, 80lbs gas shocks, heavy-duty automotive bulb seal, rubber matting, a no-drill mounting kit and our weather resistant design.

HIGH SIDE PICKUP TRUCK TOOLBOXES

Finally, heavy-duty high side pickup truck toolboxes that won’t dent when you look at them. Built with Iconic MetalGear’s standard strong, lightweight aluminum, we have created the toughest high side pickup truck toolboxes that also won’t weigh your truck down. Also featuring our 5/8” thick automotive bulb seal, rain gutter style door frame, stainless keyed and pad-lockable handles and flip down doors. You can hand these toolboxes down to your grandkids, they’re built that tough.
