ABOUT US

THE BEGINNING

Recognizing a need for industry specialists, Greg Edmonds established Drive Products in 1983 to supply products and systems to the Truck Mounted Equipment industry in Ontario. The foundation was set with a leased 3,000 sq.ft. building in Toronto, three employees, and \$100,000 starting inventory. Drive Products' success continued in the form of exponential growth with help from partners with a wealth of knowledge and experience who shared a common vision. Operations were expanded through the addition of branch locations and the integration of driveline and cable manufacturing. The company strengthened its market position by securing an exclusive distribution arrangement with Muncie Power Products and by acquiring additional complimentary product lines.

DRIVE PRODUCTS TODAY

Drive Products continues to operate as a family-owned business with Robert Edmonds in the main leadership role as President. Drive Products now offers a complete range of truck mounted equipment, products, services and solutions through a growing branch and partner network across Canada. Drive Products has continued to build on its diversification strategy centered around strong distribution, systems integration, upfitting and manufacturing capabilities. Most recently, Drive Products has established its position as a leader of truck equipment manufacturing in Canada with the additions of premium truck equipment manufacturers Kargo King Roll Off Systems (2013), Voth Truck Bodies (2014), Snowbull Tractor Plows (2017), G.W. Anglin (2019) and Del Equipment (2020).

DRIVE PRODUCTS TOMORROW

Drive Products will continue its commitment to providing premium solutions, products and services across Canada with the best people in the industry. The 2019 addition of GW Anglin manufacturing and light upfitting is the latest example of our commitment to better serve our customer base in Canada. Drive Products is now uniquely positioned to provide regional and national fleets with the full range of upfitting services from Light Truck & Van to Class 8 Heavy Truck. Drive Products will continue to seek opportunities and improve capabilities with the goal of adding increased value to our customers into the years to come.

OUR MISSION

Providing premium quality solutions, products and services from
the best people in the industry

DUMP BODY PICK UP INSERT

STEEL & ALUMINIUM

Voth Dump Body Pick Up Truck Inserts are custom designed for 1/2 , 3/4 and 1 ton short or long pickups.

Note: Shown with optional spreader mount

PRODUCT INFORMATION:

- Landscape or Chipper body styles
- Steel or Aluminium
- Twin Cylinders allow for lower mounting and higher lifting capacities
- 12V Single pump power back

LANDSCAPE DUMP BODIES

"JOB BOSS"

STEEL, HYBRID (STEEL BODY AND ALUMINUM GATES) & ALUMINIUM

From Light Duty to Contractor Grade Landscape Dump Bodies, Drive Products offers a wide range of models that are boldly designed and manufactured for maximum durability based on today's demanding applications. All Landscape Dump Bodies are built with precision to provide superior service and reliability and are backed by an industry leading warranty.

AVAILABLE LENGTHS

- 9'9" (2170lbs, 2.6 cubic yards, 7 ton hoist)
- 11'9" (2410lbs, 3.7 cubic yards, 7 or 12 ton hoist)
- 12'9" (2641lbs, 4.1 cubic yards, 7 or 12 ton hoist)
- 13'9" (2819lbs, 4.4 cubic yards, 12 ton hoist)

STEEL

HYBRID

ALUMINIUM

CHIPPER BODIES

ALUMINUM

Voth Aluminum Chipper Bodies are made for heavy duty service and are custom designed according to customer needs and specifications.

FLAT DECK BODIES - FIXED & DUMPING

**STEEL, GALVANIZED OR ALUMINUM WITH APITONG WOOD/ OR
STEEL TOPS**

Voth Flat Decks and Dumping Flat Decks are custom built to your specifications.

Available in Lengths from 8' to 26'

ROLL OFF SYSTEM

KARGO KING CTWO RENTAL SERIES

Designed specifically for the needs of Equipment Rental fleets, the Kargo King Rental Deck is designed to accommodate low clearance equipment with it's signature beavertail, making the loading and unloading of scissor lifts and compaction equipment safe and efficient. Unlike traditional hook lift systems, Kargo King's locking mechanism design means the Rental Deck sits lower at ground level with gradual incline to accept specialized equipment.

ROLL OFF SYSTEM

KARGO KING CFIVE & CSIX DETACHABLE SERIES

The Kargo King Detachable System allows business owners and fleet managers to think and act differently! This one-of-a kind truck mounted roll off system was designed with the idea that contractors often need their trucks for more than one job type. By permanently mounting a truck body onto truck chassis', business owners tie up valuable working capital when these same truck bodies can be interchanged at a fraction of the overall cost. The Kargo King DS is the comprehensive solution for business owners and fleet managers who wish to reduce capital expenditures (truck purchases) and decrease expenses (maintenance, insurance and fuel) related to their truck fleet.

ROLL OFF SYSTEM

KARGO KING CSIX RENTAL OR LUMBER SERIES

The Kargo King Rental System (RS) is a truck mounted roll off system specifically designed and engineered to meet the unique demands of present day rental equipment fleets. Over the past twenty years the number of rental equipment pieces introduced to market has increased dramatically in both volume and complexity. This increase has brought with it numerous challenges related to safe loading and transport of rental equipment. Be it small compaction equipment, scissor lifts or aerial devices, each piece of equipment presents its own potential safety concerns. The Kargo King RS addresses these concerns by design!

HOOKLIFTS

SWAPLOADER

We are pleased to announce that Drive Products is now a distributor for the SwapLoader line of hooklift products in Canada. SwapLoader is a leading manufacturer of truck mounted hooklifts for waste, government, and contractor markets across North America.

Drive Products will inventory, distribute and upfit SwapLoader hooklifts at each of our locations across Canada. Building on our strength as a systems integrator and truck body manufacturer, Drive Products will also support the distribution of SwapLoader in Canada through the manufacturing of interchangeable truck bodies at Voth Truck Bodies manufacturing facility in Tillsonburg, ON.

We look forward to the opportunity to build upon SwapLoader's strong history in Canada, bringing their product line to our Drive Products customers nationwide through our upfitting shops and distribution network.

CRANES

EFFER

Effer Truck Cranes Division designs and creates products, subject to the most demanding and accurate fatigue tests. We provide our clients with truck cranes that have the best power/weight ratio on the market. The Effer Truck cranes range counts on over 40 models from 2 to 300 tons x metre.

CARRIERS & WRECKERS

JERR-DAN

6 TON XLP CARRIER FOR FORD F550 CHASSIS

When it comes to the Jerr-Dan 6 Ton XLP, there's no need to invest in costly chassis modifications, as this carrier—equipped with a 20' deck—is now available for the Ford F550 chassis

STANDARD-DUTY WRECKERS

Jerr-Dan's **MPL-NG series** delivers unrelenting performance, thanks to its modular aluminum body and our patented Underlift Level Stop Assist System, which prevents wasting precious set-up time. Jerr-Dan's patented LOCKLINK® mechanism locks wheel-retaining arms in the full tire engaged position. The Negative Tilt Feature on the wheel lift is perfect for vehicles in parking ramps and the 4-1/2" high hydraulic crossbar, with 4,000 lb. capacity, assures clearance for even the lowest profile vehicles. The body has a clear deck top and offers more space for storage, while the headboard provides great visibility. The hydraulic valve on the MPL-NG is positioned for easier servicing to get you on the road and back in business faster.

When value and performance matter, look no further than the steel body **MPL-NGS** by Jerr-Dan. Our Negative Tilt Feature on the wheel lift is perfect for repossessing vehicles in parking ramps, and its 4-1/2" high hydraulic crossbar, with 4,000 lb. capacity, assures clearance for even the lowest profile vehicles. Jerr-Dan's patented Underlift Level Stop Assist System gets you set up quicker so you can get in and get out fast, while our patented LOCKLINK® mechanism locks wheel-retaining arms in the full tire engaged position. The body has a clear deck top and offers more space for storage, and the headboard provides great visibility. You'll find the hydraulic valve on the MPL-NGS is positioned for easier servicing, to get you on to your next job quicker.

PRESSURE TRUCKS

DRIVE PRODUCTS

Drive Products specializes in custom built pressure trucks from one-ton to tandem and tri-axle applications. We offer a full line of pumps from 50hp to 600hp.

SERVICE BODIES

GWA, READING & VOTH STEEL AND ALUMINUM

READING SL SERVICE BODY

The Reading SL service body offers an economical alternative that maintains the same premium A60 galvanized steel construction and Triple Protection E-coat primer and powder coat finish you expect from Reading. You want a steel service body because of its toughness, and the SL Service Body delivers with heavy-duty compartment doors, stainless steel bolt-on hinges and our Dual-Pro® Seal System.

VOTH ALUMINUM

Voth's all aluminum service body is manufactured in rugged, corrosion-resistant 5052-H32 marine grade aluminum. Heavy gauge construction provides additional strength, reducing maintenance and maintaining improved fuel efficiency and payload capacity at 45% lighter than steel.

The trusted high strength performance of your standard service body is now a multi-function truck to suit your industry. Rear cabinet crane reinforcement, specialized cabinetry and a durable powder coat finish will support you wherever your work takes you.

AERIALS

Drive Products understands the importance of adding the highest quality aerial system to your team. You don't cut corners in your work, and you need equipment that is built on that same promise. Entrust Drive Products to assist you in choosing your aerial device configuration to get the most done for your unique job requirements.

DURALIFT

Telescoping aerial lifts that help you work beyond your limits. Equipped with material handling, and some of the highest working heights in the industry.

ALDERCOTE

Aldercote manufactures fully integrated van mounted aerial lift solutions with unique features not found in competing brands.

ARMLIFT

Telescopic aerial devices specially designed for the class 5 truck market, Armlift's simple & reliable designs drives users to keep coming back.

LIFTGATES

Liftgate systems supported by Drive Products are cost-efficient market leaders in the pick-up, medium duty and heavy-duty truck markets. Reliability and versatility are offered with liftgates for general transportation and the municipal sector. All liftgates are multi-functional workhorses in the standard design or fitted with some of our many options. From personal to commercial and industrial use, Drive Products offers a range of Liftgates to suit the needs of the customer.

MAXON

All of Maxon's Me2 C2 liftgates are built with high performance and low maintenance in mind. An oversized, fully enclosed pump and motor assembly helps ensure increased life and less potential for downtime, while maintenance-free, grease-free bearings reduce the need for service. A timed toggle control prevents unauthorized use, automatically deactivating 90 seconds after operation.

TOMMY GATE

Tommy Gate offers a full line of liftgates for any personal, commercial, or industrial application. Depending on your particular cargo-handling needs and your vehicle, certain liftgates may be more suitable than others.

WALTCO

A WALTCO liftgate is the ultimate reliable and steady partner that will elevate your business productivity. Leading technology and quality performance will help to unlock the full potential of your load handling operations. Smart solutions help to maximise uptime while keeping both the operator and the working environment safe. From purchase through to after sales service and maintenance, the total cost of ownership of a WALTCO liftgate pays dividends for your business. All backed up by guaranteed service kits and after-sales care.

ANTHONY

Anthony Liftgates is the leader in the truck liftgate industry, producing innovative designs and building quality products for trucks of all sizes.

SNOW REMOVAL/ICE CONTROL

DRIVE PRODUCTS

Western Products are the leading manufacturer of snow and ice control products, with a full line of CONTRACTOR GRADE® snow plows for commercial snow plowing as well as personal-use and light municipal snow removal operations.

Western Products also offers a variety of hopper and tailgate-mounted ice control sand and salt spreaders, along with a wide selection of performance-enhancing snow plow and spreader accessories and parts.

LIQUID APPLICATION/ ELECTRONIC CONTROLS

FORCE AMERICA

CRITICAL SPOT SPRAYER, AI200

Our Critical Spot Sprayer assembly is designed for light-to-medium duty truck applications. Featuring stainless steel spray bars and extra high strength U.V. stabilized tanks. The Critical Spot Sprayer is capable of accurately applying liquids of all specific gravities. The Critical Spot Sprayer is ideal for parking lots, sidewalks, bridges and intersection de-icing and anti-icing applications.

TURN-KEY SYSTEM

Ready for use, no assembly needed in 200, 300, 400 and 500 gallon systems.

NO TRANSFER OR PUMPING STATIONS REQUIRED

Standard system includes integrated liquid loading, unloading and transfer functions.

ULTRA-COMPACT DESIGN

Revolutionary design allows easy transfer between all standard pick-up bodies and flatbeds.

UNIQUE SPRAY BAR STORAGE AND MOUNTING

Complete adaptability allows users to go from storage to use in seconds with exclusive receiver hitch-style mounting system.

OPTIONAL HERBICIDE SPRAY BAR

Adds multi-use functionality to your system-use year round.

SSC3100 SPREADER CONTROL

- Compact design at 4.46" H x 6.09" W x 2.75" D
- LEDs around the dial illuminate numbers as rates increase
- Simple calibration mode for adjusting minimums and maximums
- Control liquids independently of granular for direct liquid applications using the dedicated liquid dial
- Fuse accessible from the outside of the controller
- One simple harness for effortless installation
- Fully adjustable mounting option for easy, customizable installation

ONBOARD AIR COMPRESSORS

VANAIR & VMAC MOBILE SOLUTIONS

PTO SHAFT & HYDRAULIC DRIVEN UNDERDECK MODULAR SYSTEMS

Utilizing the FORD®'s own engine for power, Vanair underdeck rotary screw compressor systems provide you with the exceptional power your crew needs to get the job done where and when they need it - without hauling an expensive air compressor tow-behind. Using a single PTO opening, these systems provide up to 185 CFM* of impressive air power, AC power or hydraulics, or any combination of all three. At half the cost of a tow-behind, PTO underdeck systems mount seamlessly out of sight, under the vehicle, leaving the towing hitch free for other equipment and opens up the truck bed for additional storage space.

UDSM Air Only	PTO Shaft Driven	Air (CFM) 60, 85, 125, 160, 185 or 200	Air (PSI) 100-150
Xcite™ Generator Only	Hydraulic Driven	Air (CFM) 45, 65, 125, 160 or 185	Air (PSI) 100-150
Genair® Air & Generator	PTO Shaft Driven	Output (kW) 6.6, 10, 14.8, 20 or 23	Voltage 120 or 120/240
V2™ Air & Hydraulic	Hydraulic Driven	Output (kW) 6, 7.5, 9.6, 10, 12 or 15	Voltage 120 or 120/240
V3™ Air, Generator & Hydraulic	PTO Shaft Driven	Air (CFM) 125, 160 or 185	Air (PSI) 100-150
		Output (kW) 6.6 or 9.6	Voltage 120 or 120/240
		SAE B Pump Pad* 77 FC Lbs.	

VAN SHELVING

VOTH & GWA FOR FORD TRANSIT

Build your fleet for success with Voth's line of standard van shelving and accessories. Created with the Ford Transit in mind, select the solutions to keep your business on the go with shelving, tool racks and cabinetry to keep your crew working safe and secure on the road.

TOOL BOXES & ACCESSORIES

ICONIC METALGEAR

X-PRO HIGH SIDE TRADES TRUCK

The shape of the packs follow the angle of the truck's cab to improve fuel economy. Featuring a built in ladder rack, adjustable shelves, flip up door with gas shocks, automotive bulb seal, rain gutter door frames, and keyed stainless handles that are also pad lockable. Each truck pack comes with either a front crossbox, or a chest box option. Mounting kits included, fits most full-size Ford pickups. Ladder rack capacity: 500lbs.

X-PRO LOW SIDE STORAGE PACKS

Low side truck packs are built from super heavy-duty, yet lightweight aluminum and will easily outlast your truck. Weighing only 275lbs, these boxes will make a very minimal dent in your truck's load capacity.

The centre tonneau lift cover offers full access to your truck bed; featuring gas shocks and a reinforced lid that can hold up to 500lbs. The deep side compartments allow for easy access from the ground and weather stripping offers arm protection when reaching deep inside the box.

GULLWING TOOLBOX

Built industry tough! The gullwing toolbox from Iconic MetalGear is a lightweight, heavy duty, pickup truck toolbox that is constructed entirely with aluminum. Offering a "big mouth" design that provides easier access and greater capacity, you'll be able to carry more tools than ever in your MetalGear gullwing toolbox. Each gullwing box comes standard with stainless steel action lock t-handles, stainless steel piano hinges, 80lbs gas shocks, heavy-duty automotive bulb seal, rubber matting, a no-drill mounting kit and our weather resistant design.

TOOL BOXES & ACCESORIES

ICONIC METALGEAR

HIGH SIDE PICKUP TRUCK TOOLBOXES

Finally, heavy-duty high side pickup truck toolboxes that won't dent when you look at them. Built with Iconic Metal Gear's standard strong, lightweight aluminum, we have created the toughest high side pickup truck toolboxes that also won't weigh your truck down. Also featuring our 5/8" thick automotive bulb seal, rain gutter style door frame, stainless keyed and pad-lockable handles and flip down doors. You can hand these toolboxes down to your grandkids, they're built that tough.

BACKRACK

BACKRACK™
FUNCTION AND STYLE FOR TODAY'S TRUCKS

BACKRACK

The original BACKRACK™ maintains your truck's stylish good looks while providing strength and functionality. BackRack's cab guard protectors mount to existing stake pockets at the front of your bed to protect your cab from damage caused by large, heavy cargo that may shift forward. Reinforced steel construction ensures high strength and rigidity, and a protective layer of black powder coat resists scratches, chips, and corrosion.
