

TRADESMAN TOOLBOXES & TANKS

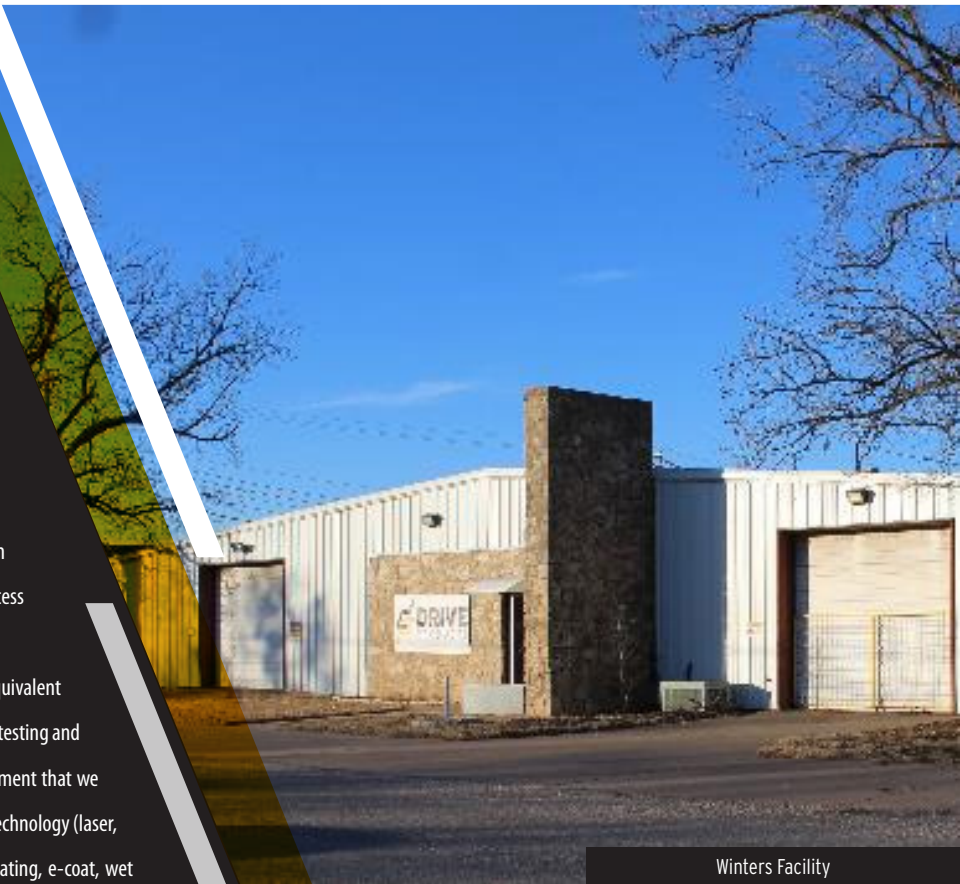

STORAGE SOLUTIONS FOR EVERY TRADESMAN

TRADESMAN is a manufactured brand of Drive Products – Manufacturing Division which boast 6 state of the art manufacturing facilities with a combined 400,000 + sq. ft. of manufacturing space.

All our facilities specialize in premium manufacturing with CWB (Canadian Welding Bureau) certification or equivalent, ensuring our manufacturing process maintains the highest quality at every stage.

Our facilities follow strict quality guidelines required in ISO certification or equivalent accreditation. Our manufacturing process is robust and follows rigorous quality testing and welding practices on every component of truck bodies, truck boxes and equipment that we build. In combination with our engineers, skilled trade staff and cutting-edge technology (laser, punching, CNC milling, CNC press brake, manual and robotic welding, zinc plating, e-coat, wet paint and powder coat). Drive Products – Manufacturing Division is set to meet the demands of the North American market.

FITMENT GUIDE

Full Size Trucks

The following full size trucks typically takes a 69" - 70" Standard (Crossover) Boxes.

- Chevrolet Silverado 1500/2500/3500
- Ford F-150
- GMC Sierra 1500/2500/3500
- Nissan Titan
- Toyota Tundra (2004 - Current)

Compact Trucks

The following Compact Trucks typically takes a 60" - 61.5" Standard (Crossover) Boxes.

- Chevrolet S-10, GMC S-15/Sonoma
- Chevrolet Colorado (2015 Edition)
- FORD Rangers / Sport Trac
- GMC Canyon (2015 Edition)
- Isuzu Standard Cab / Space CAB
- Mazda Short / Long Bed
- Nissan Frontier (2004 & Earlier)
- Toyota Tacoma (2004 & Earlier)

Mid-Size Trucks

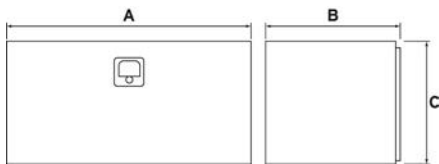

The following Mid-Size Trucks typically takes a 63" Standard (Crossover) Boxes.

- Chevrolet S-10, GMC S-15/Sonoma
- Chevrolet Colorado (2015 Edition)
- Ford Ranger / Sport Trac
- GMC Canyon (2015 Edition)
- Isuzu Standard Cab/Space Cab
- Mazda Short / Long Bed
- Nissan Frontier (2004 & Earlier)
- Toyota Tacoma (2004 & Earlier)

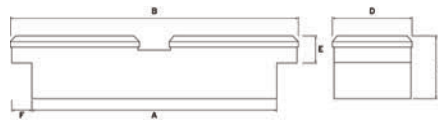

SPECIALTY BEDS

Please verify the dimensions of your truck beds before selecting a product. If there is any doubt or concern about sizes, please contact tradesman@driveproducts.com for the correct size box for your vehicle.

MANUFACTURING

TILLSONBURG

WINTERS

WINDSOR

MORDEN

Drive Products - Manufacturing Division consists of 6 manufacturing facilities with a combined space of 400,000+ sq.ft of manufacturing space. These facilities manufacture an assortment of truck bodies, truck equipment, and truck accessories for the North American Market. We use high quality steel materials and specialize in premium marine grade aluminum for our truck bodies. Our Canadian facilities are CWB (Canadian Welding Bureau) certified ensuring our manufacturing process maintains the highest level of quality.

Our facilities follow strict quality guidelines required in ISO certification or equivalent accreditation. Our manufacturing process is robust and follows rigorous quality testing and welding practices on every component of truck bodies, and equipment that we build. In combination with our engineers, skilled trade employees and cutting-edge technology (laser, punching, CNC milling, CNC press brake, manual and robotic welding, zinc plating, e-coat, wet paint and powder coat). Drive Products – Manufacturing Division is set to meet the demands of North American market.

WARRANTY

LIMITED 1 YEAR WARRANTY - MATERIALS & WORKMANSHIP

Steel / Aluminum - Toolboxes and Tanks

Component Parts – shocks, latches, hinges, and wear Items

Paint & Finish

Drive Products warrants that the Drive Manufactured Products are, at the time of delivery to the Customer and for a period of **12 months** from the date of delivery are free from defects in material and workmanship; for any Drive Manufactured Product that Drive Products has repaired, serviced or upgraded, Drive Product warrants that any repaired or replaced component of the Drive Manufactured Product will be free from defects in material and workmanship for the longer of (i) 90 days from the date of service; or (ii) the remainder of the new product warranty set out.

WARRANTY SUBMISSION PROCEDURE

Drive Products has sole responsibility and discretion for determining the cause and nature of a Drive Manufactured Product defect, and Drive Products' determination with regards to such defect shall be final. The Customer must notify Drive Products of any warranty claim within 30 days from the time the Customer knew or ought to have known about the defect. The exclusive remedy for any such warranty claim shall be, at Drive Products' option, either (i) the repair of the Drive Manufactured Product; (ii) the replacement of the Drive Manufactured Product with a product of the same or similar type with similar capabilities; or (iii) the refund of the purchase price of the Drive Manufactured Product;

Customer must provide Identification number and date found inside of Manufactured Product – Tradesman Toolboxes & Tanks and supporting images.

RETURN POLICY

No products shall be returned without prior approval in the form of a Returned Materials Authorization number (RMA). Approved products for return must be returned in new or like new condition with complete identification in their original packaging and sent prepaid unless otherwise instructed. All returns must be accompanied by proof of purchase from Drive Products in the form of a legible invoice copy. All returns are subject to a minimum 25% restocking charge.

Contact **tradesman@driveproducts.com** for warranty claims and inquiries.
